Agriculture | Beekeeping  
Sud-Kivu, République démocratique du Congo

## Résumé

I graduated in NRM. During my journey, I had the opportunity to learn and speak about many things: Nature-Based Solutions , Sustainable, and Digital Agriculture , GIS + Data Analysis , Environmental Policy and Economics , Climate Mitigation , and more. I also laughed enough with my colleagues, who helped me to stay focus and reduce stress .

Note: Chat GPT helped me to craft this Statement

## Expérience
